Soldiers' and Sailors' Picnic.

At the annual meeting of the Vice Presidents and Executive Committee of the Lorain County Soldiers' and Sailors' Association held at Elyria, June 2, 1883, it was determined to hold our Fifth Annual Reunion at Grafton August 31st, and that it shall be a basket picnic. The President was authorized to procure the services of the Grand Army Band of Elyria.

A Mild Suggestion.

The Graduating Class of our Union Schools, thinking they could be more easily heard in the Congregational Church, made application to the Trustees and obtained permission to hold their Commencement Exercises there this year. In view of the fact that this Church has been opened for this purpose three times already, it was intended to use the Methodist Church, and the change was made in deference to the wishes of the Graduating Class. Appreciating the kindness of the Trustees, and knowing that considerable soiling and injury to carpets and furniture must unavoidably result, we desire to caution those who purpose attending, adults and especially children, against entering the Church with muddy feet and afterwards against marring and soiling woodwork by putting feet upon backs of seats, on gallery front, or on any place that can be damaged. Especial care will be necessary in the event of rain and muddy walks. It is expected that no lady, gentleman or child will attempt to enter until they have thoroughly cleaned their feet. It might seem that such a request was superfluous, but it is remembered that last year so many paid no attention to this that large quantities of mud were carried in and great damage resulted. One thing more: We are sorry for the necessity that compels us to request all lovers of the weed to leave their tobacco at home. We understand how those who are obliged to stand in the vestibules during a long session are in need of a stimulant, but we beg of them, on this occasion, to fortify themselves in advance by a double portion of sobriety, and so enable us the following morning to view carpets pure and spotless as those of a church should be.

Children's Day.

Sunday, June 10th was Children's Day in the Methodist Denomination. A special service prepared for the church universally was used, the responsive readings including scripture quotations to illustrate "The Evils of Ignorance and Benefits of Knowledge," giving also much valuable information concerning church helps for promoting knowledge, and results and promises of the Children's Day and Children's Fund, the collections of this day being an offering for the assistance of worthy students who may need help in fitting themselves for usefulness in the church.
Within nine years more than 900 students of both sexes have been thus assisted, of whom many are still in the schools; 33 are in foreign lands as missionaries; 138 more are ministers, and others are teachers and professional men.
The floral decorations are a pleasant feature of Children's Day, and the music prepared for the occasion was very especially good. At the last, forty-eight little men and women from the infant class sang and recited in concert, with gestures, in a very impressive manner beginning with:
"Friends, we now would like to tell you,
We can work as well as you;
Though you think us very little,
There is something we can do."
The morning sermon was from the text in Deut. wherein parents are commanded to "Teach the statutes of the Lord diligently unto their children, talking of them when thou sittest in thine house, and when thou walkest by the way, when thou liest down and when thou risest up."

OUR LOCAL CORRESPONDENCE.

LORAIN.

Children's Day was observed here last Sunday in the M. E. Church. A rainy day, but a full attendance. The church was beautifully decorated, and a flower box took the place of the pulpit, with an arch bending over with ivy entwined and a birdcage hanging in the center. There were also eighteen birds caged, one hanging at each window and under each chandelier; with the singing of the choir and the sweet music of the little birds made one think they were in the garden of Paradise. The children of the Sunday School celebrated the day with beautiful services. Syntha Stewart was not successful in raising the score. Hines, that was sunk by the bridge some time past. Pumps failed to do the business and derricks will probably have to be used. The diver was busy at work last Saturday taking out the lime stone. A large tub fastened to a rope is used in removing the stone.
Mrs. Dr. Garver was called to Spencer last Saturday by the sickness of her sister Mrs. A. Doner.
The 14th Regiment will hold its reunion here August 10th.
Revenue Cutter Commodore Perry arrived last week Thursday and went out Friday. This is her last trip, another boat is building to take her place. She has traveled the lakes 19 years.
The Lorain Union Schools will close this week Friday. No graduating class this year.
The recent improvements made on the Farrell Hotel add greatly to its appearance. Now Mr. Farrell would only do away with his bar and billiard room it would make one less and do a great favor in this vicinity.
I am sorry to say that the large building going up on the south-west corner is to be a saloon. Why is it that the Scott liquor law does not effect Lorain nor any of its numerous saloons.
Geo. A. Clark and Randall Austin have purchased the yacht Tenth Moore, of Mr. Truman Moore.
The audiences at the Baptist church are constantly increasing. Rev. Good presenting some very instructive sermons.
A strawberry and ice cream festival last Wednesday evening in Mr. Holman's new house on Penfield Avenue for the benefit of the Baptist church.

SPENCER.
The lecture by Rev. N. S. Albright Tuesday evening the 6th inst., was not well attended because of the extremely bad weather. But those who came despite the mud, rain and dark, were abundantly remunerated for all their pains. The lecture was one of the best we have heard on the subject.

THE MARKETS.

Cheese.

The price has taken a very sudden fall, owing, partially, to the condition of the Eastern market, precipitated prematurely, it is claimed by some parties unnecessarily, by a desire to make themselves solid with the trade by being the first to make concessions on a falling market. The fall was inevitable, but the regulation of prices can never be managed satisfactorily either to dealers or patrons until a Cheese Board of Trade is established. This ought to be done without delay, and if dealers are unwilling the patrons should demand it in their own interests. The stocks are in good condition and supply, and the trade very satisfactory. We quote, trailing (boxed) 8 cents.
